EXPERIENCE

Infatoz Technologies (Intern and MERN Stack Developer (ON Hand Experience on 6 month))   **Aug 2023- jan 2024**

- **End-to-End Development:**Built full-stack web applications using the MERN stack, handling both frontend and backend development from design to deployment..
- **Feature Implementation & Collaboration:**Implemented dynamic features and worked collaboratively in an agile environment, ensuring seamless integration and team productivity..
- **Client-Centric Communication:** Interacted directly with clients to understand project requirements, gather feedback, and deliver customized, user-focused solutions.

GeeksIT Data Solutions Pvt. Ltd.(Intern, Web Development, Full Stack Developer)   **Oct 2021 - Oct 2022**

- **End-to-End Development:** Designed and implemented both frontend and backend components, ensuring 99% seamless integration and system functionality.
- **Efficient Project Management:** Managed multiple projects simultaneously, meeting 100% of deadlines while optimising workflow efficiency by 40%.
- **Collaborative Team Leadership:** Coordinated with team members, assigned tasks, and resolved technical challenges, improving project delivery quality by 35%.
- **Client-Centric Communication:** Conducted regular client meetings, addressing concerns and resolving 95% of production-level issues within SLA, enhancing client satisfaction.

PROJECTS

BloodBank Management System (MERNStack) Link   **Aug 2024**

- **Backend Architecture:** Designed and implemented a scalable Node.js backend for managing blood donations and requests.
- **Secure Authentication:** Integrated JWT-based authentication to ensure secure user access and data protection.
- **API Development:** Developed RESTful APIs to facilitate real-time data exchange between frontend and backend, improving system efficiency.
- **Database Management:** Utilized MongoDB for efficient data storage and retrieval, optimizing query performance.

E-COMMERCE (MiniProject)   **Mar 2024**

- **Full-Stack Inventory Management Solution:** Integrates frontend and backend technologies for efficient inventory tracking and management.
- **Robust Backend & Dynamic Frontend:** Built with PHP for backend operations and JavaScript with jQuery for a responsive, real-time user experience.
- **Scalable & Customizable:** Designed to provide accurate inventory management with adaptable solutions for various business needs.

Matrimonial   **Sep 2023**

- **Automated Matching Algorithm:** Utilizes advanced mathematical calculations to ensure accurate compatibility scoring.
- **Efficient Transaction Processing:** Generates precise billing receipts for every transaction, enhancing financial transparency.
- **Scalable & Reliable:** Designed for seamless user experience with real-time data processing and status tracking.

EDUCATION

CMR Institute of Technology(Master of Computer Application)
Major: Full Stack Development; React, Node; Minor: Data Structures
Cumulative GPA: 8.6/10   **Bangalore, Karnataka**
                                          Aug 2024

CERTIFICATES

Earned Javascript Advanced certification from Cutshort| Link	**May 2025**
Introduction to JavaScript certification from Greatlearning.	Link	**Jan 2024**
Earned a Java programming certification from Greatlearning.	Link	**Dec 2022**
TestDome is an online skills tests platform that uses work-sample testing. SQL| Link	**Jun 2023**

SKILL SET

Technical: PHP Frameworks (CodeIgniter (3,4), JavaScript (jQuery), HTML4, CSS3, Bootstrap (4,5), ReactJS , NodeJS , Redux, MySQL, MongoDB.

Tools: GitHub, BitBucket, Visual Studio, Slack, XAMPP.
