Deepak Saini

MERN Stack Developer | Full-Stack Software Engineer

Jaipur, India | +91 6376893673 | deepaks6727431@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Full-Stack Developer with approximately 1.5 years of combined experience in **MERN Stack** and PHP/CodeIgniter development. Skilled in building responsive web interfaces using React.js, developing RESTful APIs with Node.js and Express.js, implementing authentication, and managing databases using MongoDB and MySQL. Experienced in developing and maintaining web applications, with hands-on projects demonstrating full-stack development and backend API security..

Technical Skills

Languages: JavaScript (ES6+), PHP, SQL, Python (familiar), Java (familiar)
Frontend: React.js, HTML5, CSS3, Bootstrap, jQuery, Context API
Backend: Node.js, Express.js, CodeIgniter, RESTful APIs, JWT Authentication
Databases: MongoDB, MySQL, SQLite
Tools: Git, GitHub, Postman, VS Code
Additional Technologies: Django, Next.js, GitHub Copilot, AI API Integrationintegration

Professional Experience

Software Engineer Intern – MERN Stack *Jan 2025 – Jun 2025*
Infatoz Technologies

- Developed responsive user interfaces using React.js and Bootstrap.
- Built RESTful APIs with Node.js and Express.js and implemented JWT-based authentication.
- Created reusable React components and used Git for version control; participated in code reviews.

Full Stack Developer *Oct 2021 – Oct 2022*
GeeksIT Data Solutions Pvt. Ltd.

- Developed and maintained web application features using PHP, CodeIgniter, jQuery, and MySQL.
- Worked on REST API improvements, query refactoring, and database indexing to improve response performance.
- Resolved application bugs and maintained MySQL schemas to support data integrity and efficient querying.
- Contributed across the development lifecycle, from requirements and implementation through testing and deployment.

Projects

E-Commerce Backend API *Mar–Apr 2026*
Node.js, Express.js, MongoDB, JWT, Zod, bcryptjs [GitHub]

- Developed RESTful APIs for user authentication, product management, product reviews, and order processing using Node.js, Express.js, and MongoDB.
- Implemented product search, filtering, sorting, pagination, image uploads, and order workflows with stock validation, GST calculation, and cancellation handling.
- Added JWT access and refresh tokens, role-based authorization, password hashing, Zod input validation, rate limiting, and password-reset token handling.

ChaiHeadQ – Django Social Media Application
Python, Django, SQLite, HTML, CSS [GitHub]

- Developed a Twitter-style application featuring user registration, authentication, tweet creation, editing, and user-specific deletion.
- Implemented photo uploads and search functionality for tweet content and usernames using Django views and ORM queries.
- Built database-backed functionality with Django models and SQLite, using templates for the web interface.

ShreeRadha – Naam Jap Web Application *Oct 2025*
React.js, JavaScript, CSS, React Router, WordPress REST API [GitHub] [Live]

- Built an interactive Naam Jap counter with 108-count mala tracking, daily and total statistics, a timer, and circular progress visualization.
- Persisted chanting history in browser localStorage and implemented date-based history viewing using React hooks.
- Integrated the WordPress REST API to fetch blog and Naam Jap content, with route-based navigation using R-R.

BloodBank Management System *Oct 2025*

React.js, Node.js, Express.js, MongoDB, JWT, Redux [GitHub] [Live]

- Developed a blood bank management system with user authentication and role-based access for donors, hospitals, organisations, and administrators.
- Implemented APIs to manage blood inventory records, retrieve donor and hospital data, and track incoming and outgoing blood quantities.
- Used MongoDB aggregation to calculate inventory totals and available quantities across eight blood groups.

Education

Master of Computer Applications (MCA) *Jan 2022 – Oct 2024*
CMR Institute of Technology, Bengaluru, Karnataka **CGPA: 8.67/10**

Bachelor of Computer Applications (BCA) *Jul 2018 – Oct 2021*
Seth Gyaniram Bansidhar Podar College, Nawalgarh, Rajasthan **73.30%**

Certifications

- Python 101 for Data Science (PY0101EN) – IBM / Cognitive Class (2026) Verify
- Python Programming Course – Simplilearn (2025) Verify
- Frontend Developer (React) – HackerRank (2025) Verify
- JavaScript Advanced Certification – CutShort (2025) Verify
- JavaScript Course – Scaler Topics (2025) Verify
- Java (Basic) – HackerRank (2022) Verify; SQL Assessment – TestDome (2023)
